MM 220

Two-Piece Computer Speaker System

The Boston MM 220 speaker system delivers rich, realistic audio from any media source. Upgrade the sound of your desktop or laptop computer. Take video games to a new level of realism. Share music from your iPod, Zune, or other portable media players. You can even keep all the great sound to yourself by connecting headphones. The MM 220 system features advanced technologies and a high-style, slim-profile design that adds a new dimension of excitement to any multimedia content.

Satellite speakers

Powerful two-piece system with compact slim contoured design

Great sound and great style!

Second stereo input

Ideal for use with any iPod or other portable media player

BassTrac® audio processing

For rich clean bass at any volume

Just add realism.

MM 220 speakers feature dual high-output drivers and a single passive radiator for exceptional bass performance that will improve the sound of any media. Yet they're compact enough to fit neatly anywhere, and simple enough to be easily switched from device to device and from place to place.

But be warned: once you hear the difference the MM 220 speakers make, you may decide you need more than one pair.

What it means to be from Boston.

First and foremost, Boston is an engineering company, and every Boston system is optimized to meet the highest performance standards (our own).

Of course, performance is only one measure of value. So we're careful to build all our products with strict attention to everything from the choice of materials to the details of fit and finish. It's how we've been exceeding the expectations of serious music listeners for nearly thirty years.

Features

- Two-piece system with 80 watts dynamic output power
- Dual 2-inch high-output high excursion drivers with single passive radiator
- ½-inch high performance tweeters
- Stereo headphone jack

Dimensions (H x W x D)

5½ x 12⅞ x 8" (140 x 327 x 203mm)
