

Boston Horizon MCS 130 System

Make it your own with optional interchangeable grilles, a Boston exclusive.

Shown here in M1st with Silver grille

play together. play smart.

Cineplex sound doesn't have to be complex. Small enough to hang on the wall, but powerful enough to bring down the house, the Horizon MCS 130 package takes all the complexity out of multi-channel audio — without sacrificing any of its impact.

So let Hollywood or Nashville pile on the excitement. It's all in a day's work for MCS 130.

Boston Horizon MCS 130

Integral wall mounts
5-way gold-plated binding posts
Adjustable foot

What it means to be from Boston.

Many manufacturers design speaker systems around third-party, off-the-shelf parts. Boston Acoustics engineers every component of every system to meet the highest performance standards (our own). Of course, performance is only one measure of value. So we're careful to build all our products with strict attention to everything from the choice of materials to the details of fit and finish. It's how we've been exceeding the expectations of serious listeners for nearly thirty years.

Theater without the box office...

...and music without the standing room only. The MCS 130 package includes 3 LCR speakers, 2 surround speakers, and a powered subwoofer designed to work together as a single voice-matched system. The speakers feature Deep Channel® Design (DCD) poly cones with phase plugs to ensure smoother overall response, and 1-inch soft-dome Kortec tweeters for clean, distinct dialog or lyrics, while the down-firing subwoofer adds floor-rumbling bass. Gently-curved front baffles and open side grilles reduce diffraction. MCS 130 delivers stunningly-lifelike multi-channel sound for movies and music, from a simple, compact system that's right for virtually any room. .

Includes:

- 3 LCR speakers
- 2 Surround speakers
- 1 Powered subwoofer

| Specifications | LCR* (Left/Center/Right) | Surround* | Subwoofer |
|------------------------|---|--|---|
| Frequency Response | 110Hz – 20kHz (±3dB) | 110Hz – 20kHz (±3dB) | 40 - 150Hz (±3dB) |
| Recommended Amplifier | 10 – 150 watts | 10 – 150 watts | — |
| Sensitivity | 88dB [2.8v at 1m] | 88dB [2.8v at 1m] | — |
| Nominal Impedance | 8 ohms | 8 ohms | — |
